

Telecommunications rigging & civil construction.

Nationwide, Australia
Edition 2026

WHO WE ARE

Coretel Group is a director-led Australian telecommunications infrastructure contractor. We deliver rigging, integration, civils, structure upgrades and decommissioning — greenfield and brownfield — for prime contractors and carriers. Our people are experienced riggers, skilled across both structural and RF / Tx works.

Capabilities

Rigging

Towers, monopoles & guyed masts — greenfield stands, extensions, antenna & microwave installs.

Civils

Foundations, ODU slabs, compounds, trenching, conduit & power connection.

Integration — RF & Tx

Cabinet builds, RF & transmission overlays, brownfield co-locations, commissioning & acceptance.

Upgrades, Refurb & Decoms

Structure upgrades (e.g. Amplistark), lifecycle refurbishment, audits & decommissioning.

Scope & structures

GREENFIELD STANDS

BROWNFIELD CO-LOCATION

LEBLANC & ROCLA MONOPOLES

LATTICE TOWERS

GUYED MASTS

HEADFRAMES & FACE FRAMES

RF / TX INTEGRATION

STRUCTURE UPGRADES

REFURBISHMENT & DECOMS

Experience

Delivered under prime contracts for **HVAC Australia, Ventia, Hardline Group & APD**, on structures and networks for **Telstra, Optus, NBN Co, Amplitel & Indara** — from NBN greenfield builds to brownfield co-locations, structure upgrades and remote refurbishments.
